WebDev | Pharma Investment & Due Diligence Execution

Tech-Driven Solutions Across Industries | Scalable Multi-Sector Business

DK - Frederiks, Viborg, 7470• (45) 30 41 48 79 • be.catalin@protonmail.com • LinkedIn | Scandinavian Web Project | Slingshot Insights

- Developing multi-sector, multi-variant solutions with **over a decade of experience** in **technology, investment research, sustainability, and governance**. A driving force behind **Scandinavian Web Project**, **PharmaTrend**, and multiple high-impact ventures, I specialize in **digital transformation, financial due diligence, and large-scale infrastructure engineering**.
- **Implemented expert-driven pharmaceutical due diligence** for 10 years through **Slingshot Insights** and branching into **PharmaTrend**, connecting investors with medical professionals and reinvesting into long-term rare disease research.
- Prototyping sustainability solutions, including **pipeline cargo transport, compressed-air energy storage, water-cooling data centers, regenerative forestry investments, pharmaceutical investment research, orbital freight logistics, and direct democracy governance models**—integrating **technology, finance, and policy for systemic transformation.**

PROFESSIONAL EXPERIENCE

Scandinavian Web Project, Struer, DK • Founder, Software Dev 11/2023 -

Key initiatives included **building a robust outsourcing and recruitment pipeline** to source top-tier development talent, streamlining **custom software solutions for e-commerce and service industries**, and implementing **UX enhancements** to optimize client engagement. Led **significant client acquisition growth, increased project scalability, and a diversified service portfolio** to positioned SWP in **digital transformation for SMEs and emerging enterprises**.

- Built and scaled **web development and digital consultancy**, modernizing businesses in Scandinavia & North America.
- Led **SEO, PPC advertising, branding, and software development** projects for high-profile clients.

Slingshot Insights, New York • Senior Associate 10/2014 -

- Led high-impact **due diligence initiatives**, providing institutional investors with **actionable insights** into the pharmaceutical and biotech industries. Designed **data-driven research frameworks**, integrating **clinical trial analytics, regulatory timelines, and expert interviews** to optimize investment decision-making.

- ► Orchestrated a team of research and analysis to **execute 2000+ expert calls annually**, fostering collaborations with **medical professionals, biotech executives, and key opinion leaders (KOLs)**. Maintained a **5,000+ event database**, mapping out the most critical **pharma industry catalysts** affecting billion-dollar investment portfolios.
- ► Partnerships with Seeking Alpha, AlphaSense, Legal Alpha, STAT News
- ► Utilized **Bloomberg Terminal** and **FactSet** to track financial markets, analyze industry trends, and create concise, data-driven insights. Wrote snippets, summaries, and short articles on key financial events to keep potential clients informed and engaged, leveraging data-driven content to generate interest and drive engagement.
- ► Launching **PharmaTrend**, a specialized **due diligence platform tailored for hedge funds and private equity firms**. Reinventing traditional research methodologies by integrating **AI-driven insights, proprietary physician databases, and exclusive access to regulatory updates**—driving new revenue streams and investor engagement.
